SUMMARY

MCA student with foundational knowledge in web development and programming. Familiar with HTML, CSS, JavaScript, Python, and SQL through academic learning, internships, and personal projects. Interested in learning new technologies and gaining practical experience in software development. Adaptable and willing to continuously improve technical skills.

SKILLS

HTML5, CSS3	SQL (Intermediate)	Prompt Engineering (Basic)
JavaScript (Basic)	GitHub Version Control	React Native(Basic)
Python (Basic)	AI-Assisted Development (ChatGPT)	

PROFESSIONAL EXPERIENCE

Web Development Intern — CodSoft (Virtual Internship)

May 2025 – June 2025

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Built a functional calculator application with real-time user input processing.
- Designed a responsive landing page with structured layout and modern styling.
- Created a personal portfolio website to showcase technical project.

Web Development Intern — TEACHNOOK (Teachscape Online Learning Services Private Limited)

February 2024 – March 2024

- Completed structured web development training covering frontend technologies.
- Developed responsive web pages using HTML, CSS, and JavaScript.
- Used GitHub for version control and project management.
- Applied debugging techniques to fix application issues.

EDUCATION

Master of Computer Applications (MCA)
S.A Engineering College
2024 – 2026
CGPA: 7.38

Bachelor of Computer Applications (BCA)
Vel Tech Ranga Sanku Arts College
2021 – 2024
CGPA: 7.4

PROJECTS

Personal Portfolio Website

- Designed and developed a responsive portfolio using HTML, CSS, and JavaScript.
- Implemented interactive UI features and navigation improvements.
- Integrated GitHub project links for code visibility.

AI Virtual Mouse

Python, OpenCV, MediaPipe, PyAutoGUI

- Built a real-time gesture-based virtual mouse system using computer vision
- Implemented gesture recognition for left click, right click, scrolling, and drag actions

BuildMate — Building Materials Management App

(React Native, Supabase, TypeScript)

- Built a mobile app for a building materials agency with separate portals for Admin, Customer, and Driver
- Features include inventory management, product ordering, cart & checkout, and delivery tracking
- Used Supabase for backend/database and Expo Router for navigation
